

Reproducible Pilot Benchmark

Median of 10 sequential seeded trials; whiskers show the interquartile range

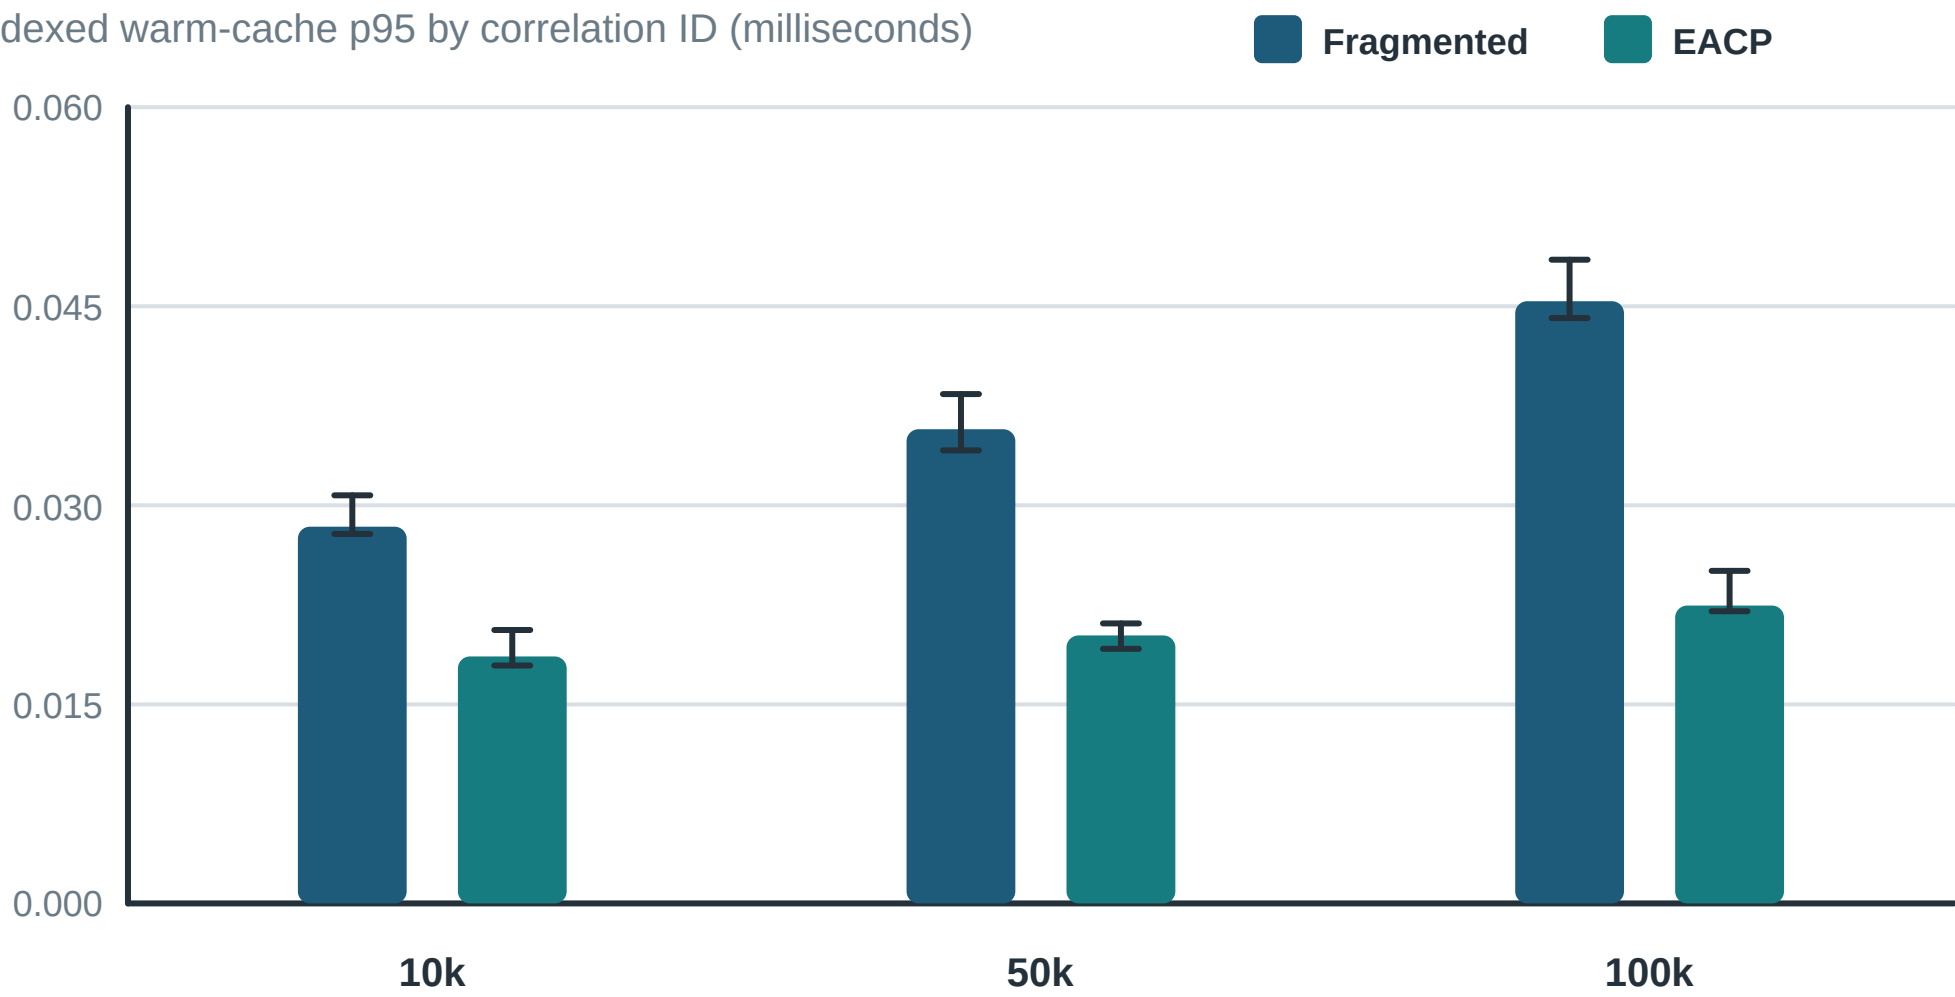

A. Service-state reconstruction

Indexed warm-cache p95 by service (milliseconds)

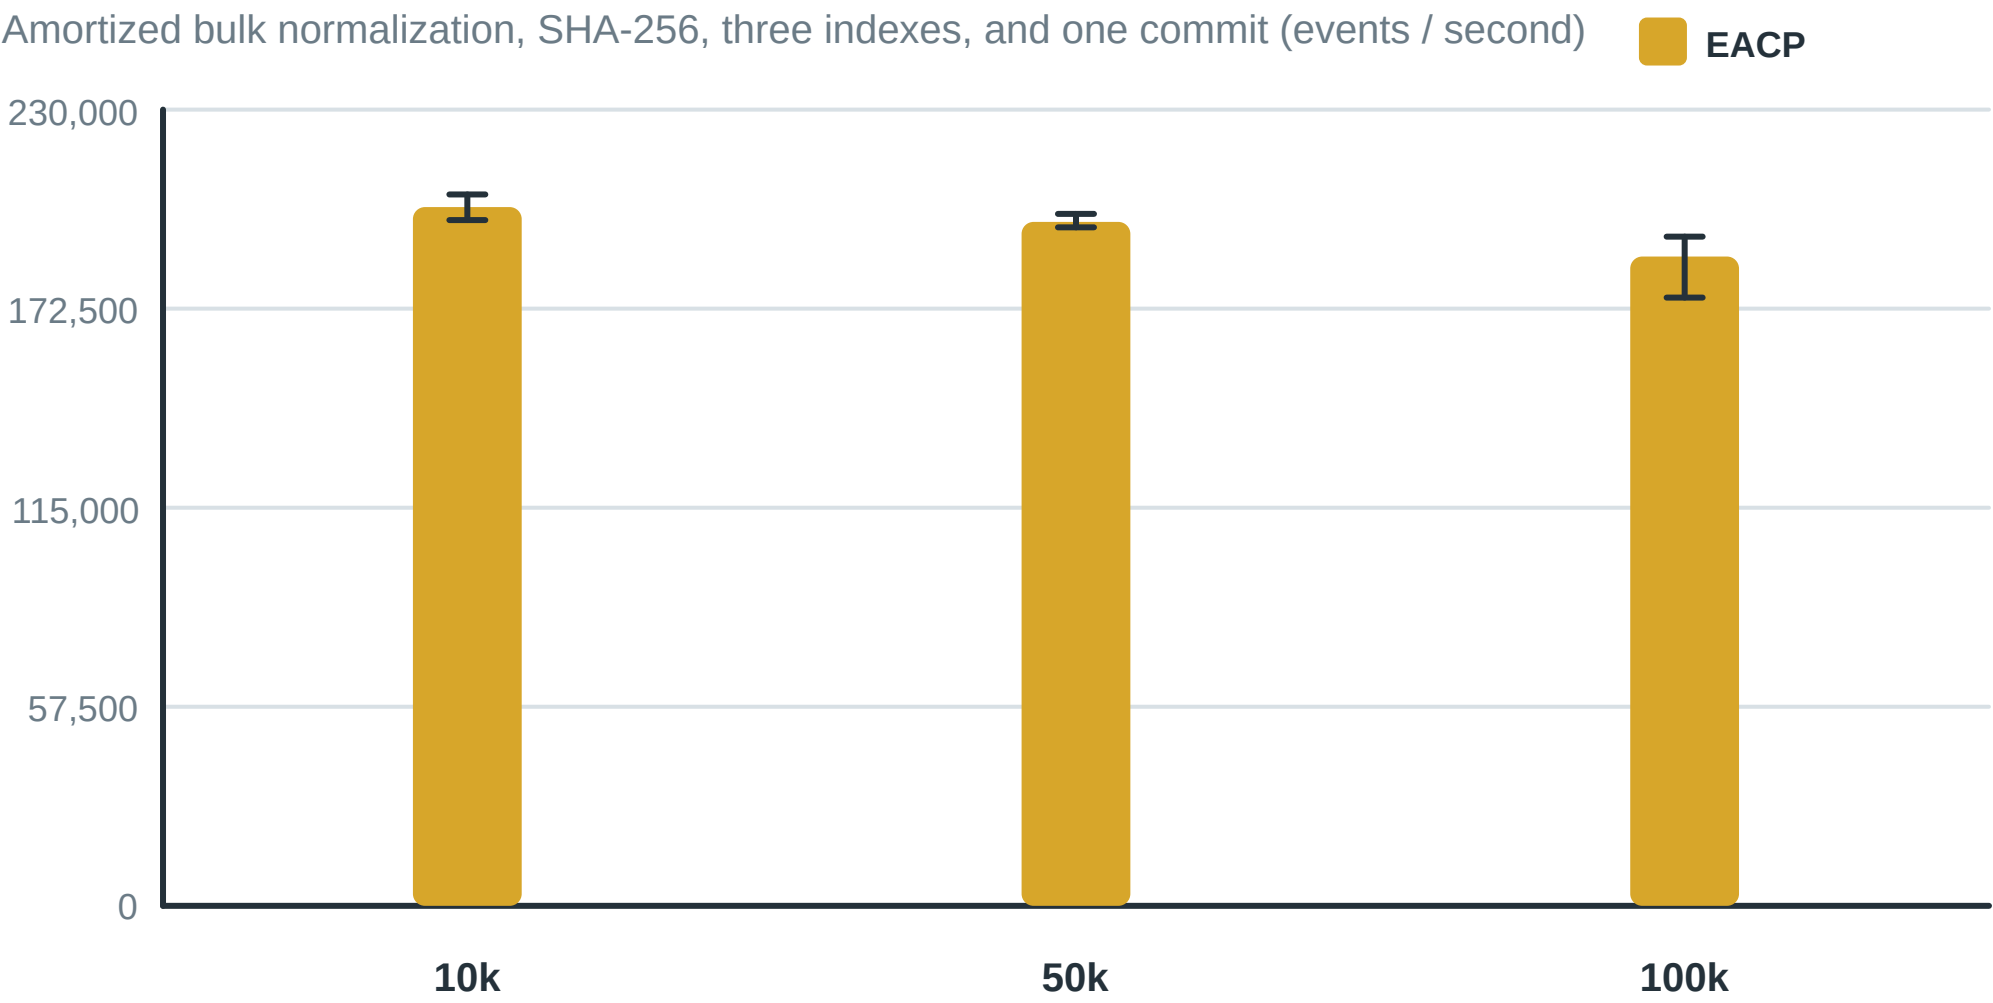

B. Cross-plane correlation

Indexed warm-cache p95 by correlation ID (milliseconds)

C. Evidence ingestion

Amortized bulk normalization, SHA-256, three indexes, and one commit (events / second)

D. Physical SQLite storage

Separate database size after VACUUM (bytes / event)
